Monthly Report

August 2022

Published October 07, 2022

GARTNER METRICS

Metric	2020 (Mean)	2021 (Median)	2022 (Median) [Interquartile range]
Abandonment Rate	5.1%	4%	6.0% [3.0%-10%]
Cost per Contact	\$17.90	\$19.80	\$21 [\$13.30-\$38.30]
Cost per Endpoint	\$1,078	\$1,193	\$829 [\$585-\$1260]
Endpoints per Technician	499	212	389 [211-559]
First Contact Resolution Rate	74%	71%	70% [56%-80%]
Linux Servers per FTE	268.0	234.0	231 [169-434]
Windows Servers per FTE	279.0	293.0	299 [188-476]

Icons used in this report

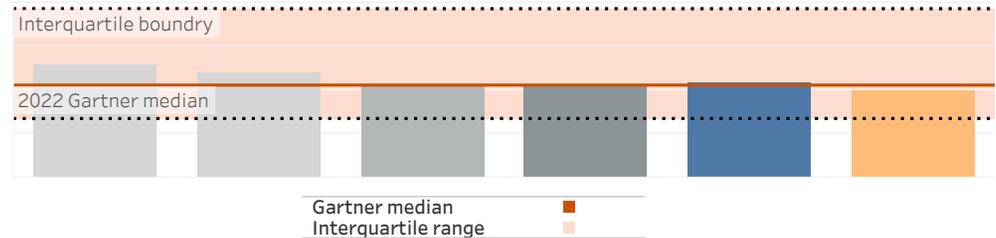

Factors influencing data this month; As identified and provided by data owners.

Notes defining and providing context to the data.

Interquartile Highlighting

NOTE: Help Desk Gartner benchmarks for 2020 and 2021 are for Medium Environments (65K-170K Handled Contacts per year), Departmental Support Gartner benchmarks for 2021 are for Small Environments (<13K total computing devices); 2020 used the overall average, and Solutions Engineering Gartner benchmarks are using the overall median.

All 2022 Gartner values use the overall median, with interquartile ranges included. Interquartile ranges are the values from the middle 50% of the Gartner sample population.

Help Desk Annual Contacts

*Office 365: Experienced multiple outages in Aug. related to Teams, mail forwarding, & calendaring, leading to resolutions & tickets that went unresolved for longer than the first hour.

*NetID Account Management & BadgIRT fell .5% below target, no immediate concern.

*MyUW Madison: Experienced two certificate errors at the beginning & end of Aug. leading to slightly elevated escalation rates.

*Campus Network Housing: Outages in residence halls & Eagle Heights led to higher than average escalation rates, no concerns.

*Learn@UW Madison: Saw higher escalation rates due to 30 non-timetable courses which require manual creation & access. The start of semester also tends to lead toward more escalations as professors setup courses & students attempt to gain access.

*Course Search & Enroll: Experienced issues for about two days at the end of August, likely driven by higher loads. Short term issue & no concerns.

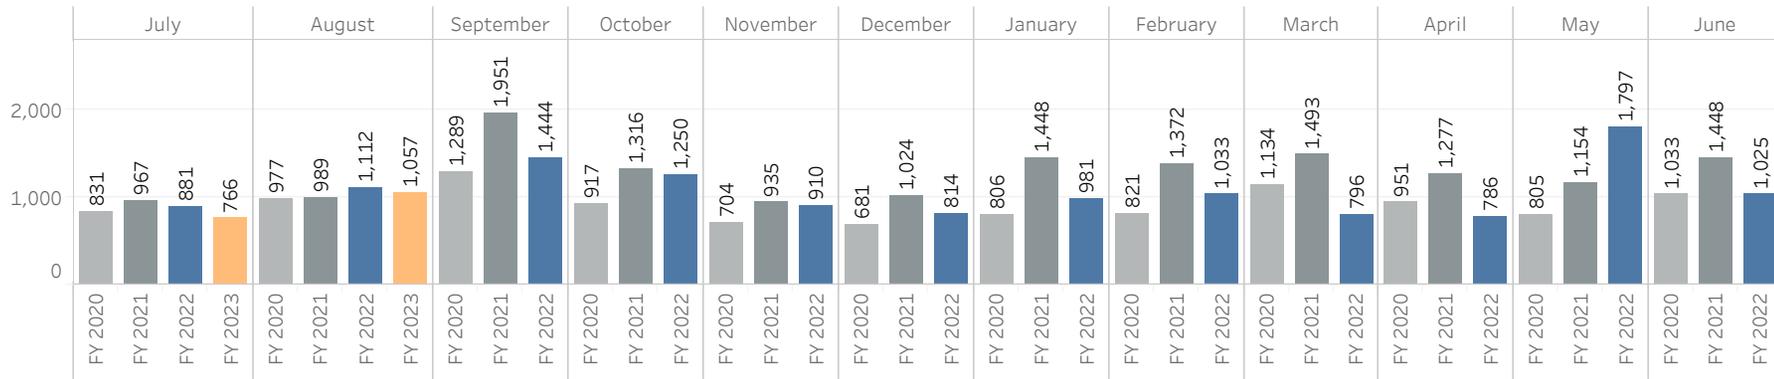

NOTES: *HD % Resolution = incidents resolved by the Help Desk rather than being escalated to a specific service team
 ** First Contact Resolution has been defined as a phone incident opened by the Help Desk and resolved by the Help Desk, within one hour of the incident being created. As only phone incidents are looked at, this metric may be blank if no phone incidents were reported for that service during the previous month.
 Walk-in incidents are included for FY2020 onward to reflect the Walk-in & Help Desk merger

Departmental Support - Annual Contacts

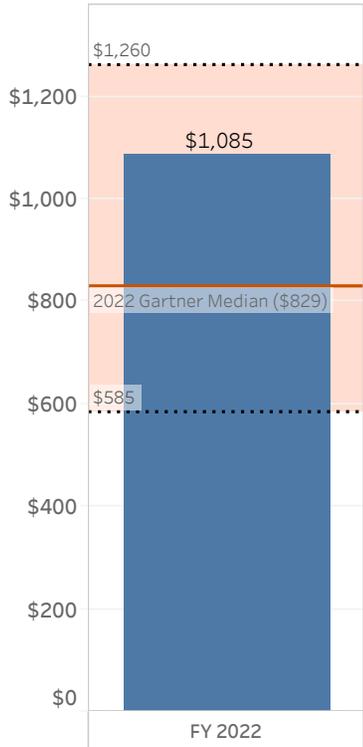

Customer Satisfaction

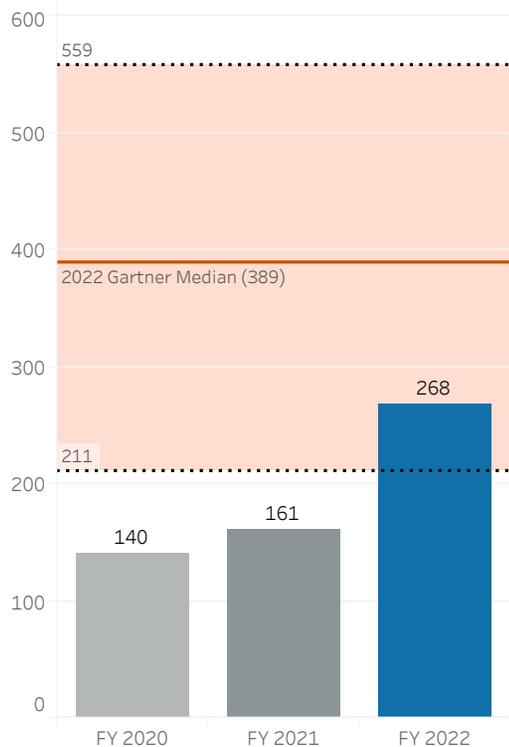

Notes: " Departmental Support Annual Contacts represent cases resolved by DS teams.
 Survey respondents rate satisfaction on a 7 point scale in response to: 'We value your opinion. How was your experience with us?'
 7 Completely satisfied, 6 Mostly satisfied, 5 Somewhat satisfied, 4 Neither satisfied nor dissatisfied, 3 Somewhat dissatisfied, 2 Mostly dissatisfied, 1 Completely dissatisfied"

DoIT OPERATIONS: USER SERVICES - DEPARTMENTAL SUPPORT METRICS

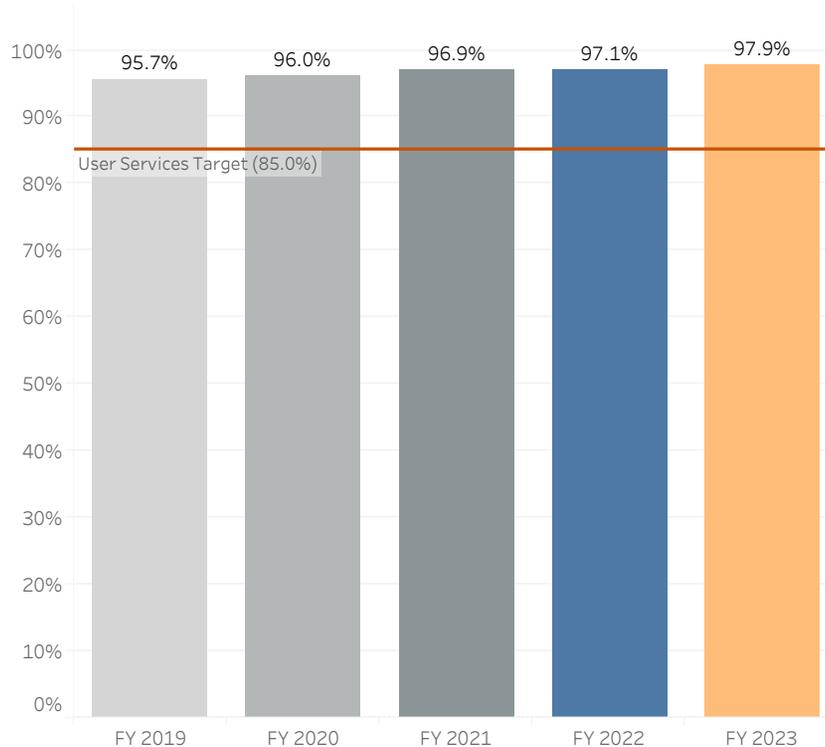

***Cost Per Endpoint**

****Endpoints Per Technician**

*****Customer Satisfaction**

NOTES: *Cost per endpoint methodology updated for December 2021 to eliminate "complexity" as a variable and expand sample size. Gartner includes the costs of voice, peripherals, software and external services which we have not as there are alternative funding models for those items. Prior values are not directly comparable to the updated methodology, and will not be recalculated. Updates will be processed annually.

**DS Endpoints per technician calculation updated to better align with Gartner definitions for FY2022. Previous years values retained for historical reference. Gartner benchmark includes mobile devices (eg. smartphones), and has not been adjusted to account for our lack of mobile device management. Updated calculation redefines technician as a person rather than based on hours worked, and adds 56% of Infolab computers as managed endpoints. Calculation updated twice annually. Updated June 2022.

***Survey respondents rate satisfaction on a 7 point scale in response to: 'We value your opinion. How was your experience with us?'

Target Colors

■ Above Target

-Availability is for wired (not wi-fi) connectivity at each institution. Availability calculated as total uptime / total time per month. Wide Area Network is considered down when completely disconnected from the system (i.e. both routers down at 4-year schools, the single router down at 2-year schools). Any planned outages are included in the calculations, sometimes making availability appear below commercial standards of 99.9% or 99.99% uptime.
 -The 99.9% SLA rate with UW System is for unplanned outages; the figures in this table include all outages – planned or unplanned. SLA faults here (highlighted in RED) may not actually be an SLA agreement fault.

	% of full capacity (20Gbps)	1.4	1.4	1.6		% of full capacity (20Gbps)	6.00	5.50	5.50

NOTES: Average (mean) network usage includes night and weekend readings of typically much lower traffic. Averages for UW-Madison Campus Internet Access and UW-Madison internet Exchange will likely be lower in summer months than they are during the academic year. 95th percentile usage is a more common industry standard than avg/max/min for measuring utilization; Network Services is working on providing that measure as well in future reports. A peering exchange, such as the Madison Internet Exchange, enables networks to interconnect directly to each other and exchange IP (Internet) traffic. Peering is the exchange between two independent networks for the benefit of both networks. The target for WAN speeds is a capacity threshold instead of a specified speed to maintain. When 95th percentile speeds reach about 45-55% of capacity, there is an engineering exploration to determine the cause of increased usage and whether increased capacity is warranted.

Remaining From August

N/A

SEO Vulnerabilities Summary

i The WiscIT and Qualys integration stopped working in late June. Cybersecurity and Service Management are working on a resolution, but we aren't able to include an updated vulnerabilities summary graphic until this integration issue is resolved. In the interim, we were able to obtain the August vulnerability numbers directly from Qualys***

NOTES: Data in this visualization is pulled directly from Cherwell
 * Refers to the number of active vulnerabilities with a severity of 4 or 5.
 **Remediated data is currently not available prior to August 2018
 ***August Vulnerability numbers: • Type: Confirmed Vulnerability - S1: 3; S2: 15; S3: 903; S4: 1506; S5: 355
 • Type: Potential Vulnerability - S3: 10; S4: 6
 • August Total Discovered: 2798; July Remediated: 2278; Active & Urgent Vulnerability: 107; Remaining from July: 556

DoIT OPERATIONS: OPERATIONS ENGINEERING INCIDENT & PROBLEM SUMMARY

Incidents & Problems Last Four Months

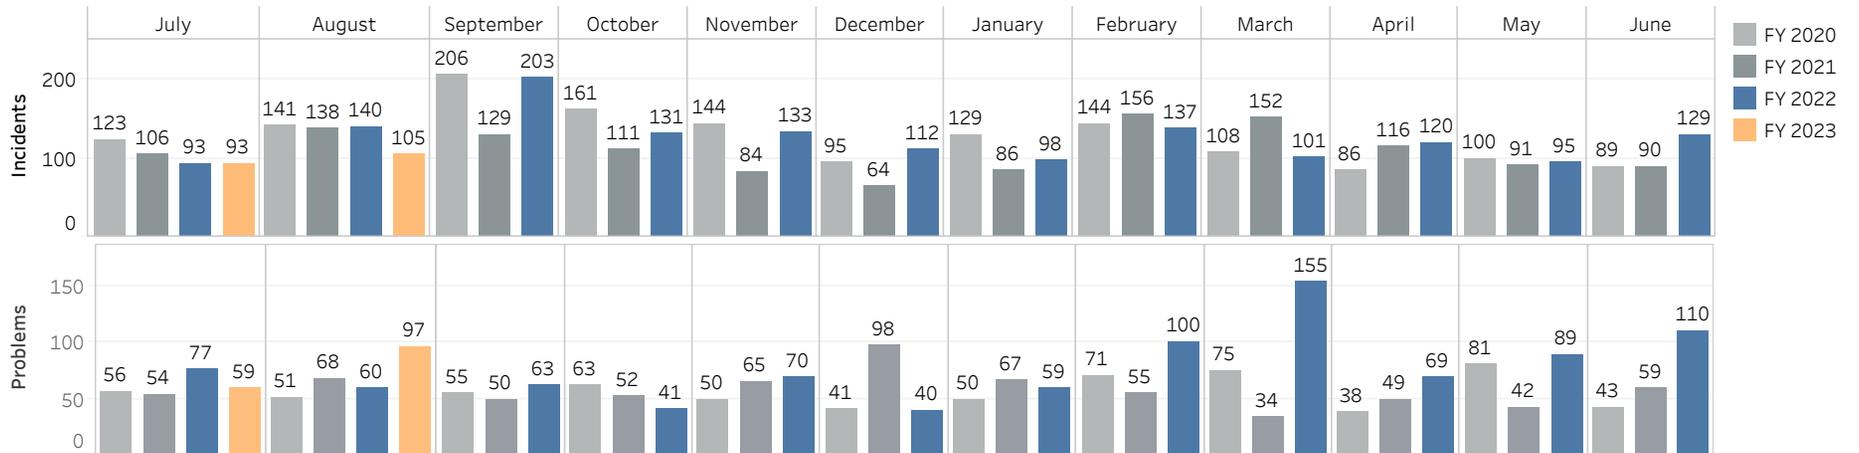

Incidents

	May	June	July	August

DoIT OPERATIONS: TECHNICAL NOTES

HD: Walk-in created incidents are considered Help Desk incidents beginning in FY20 due to the merger between former Tech Store (Service Desk) and the Help Desk that began on July 1st, 2019.

HD-Overview: Cost per contact FY19 will be used due to a six month minimum to calculate the Gartner benchmark. 2018 HDI Benchmarks will be used until the release of 2019 numbers.

HD-Benchmark Details: First Contact Resolution for Help Desk User Services has been defined as an incident opened by the Help Desk and resolved by the Help Desk, within one hour of the incident being created.

DS-Overview: Total number of endpoints that have been verified via IBM BigFix: within the past 45 days as of 11/5/2019

DS-SLA Response Rate: Priority matrix obtained from WisclT. In Priority 1 cases, an entire department is unable to perform duties and there is no workaround available. Priority 2 cases involve one or multiple users being unable to perform duties without a workaround, or an entire department only able to perform partial duties. Priority 3 cases include an entire department or any number of its users being able to perform duties with a workaround, or one or multiple users being able to only perform partial duties. Priority 4 cases are for deferred cases or monitoring / tracking.

Active & Urgent Vulnerabilities: Number of active vulnerabilities with a severity of 4 or 5

Financial Services:

Average number of Days to Pay: E-reimbursement: Length of time, in days, from point that the requests enter the Financial Services queue to reimbursement payment to the employee. Note: this is a metric measured by campus, so we are using campus average as a point of comparison.

Days from SFS Close to CBS Close is the amount of days from Campus Financial close to DoIT CBS close.

Days from CBS Close to Management Report is the amount of days from DoIT CBS close to the DoIT Manager Report finalization.

Days from SFS Close to Management Report is the amount of days from Campus Financial close to the DoIT Manager Report finalization.

Cybersecurity-Cybersecurity Operation Center: Includes the following categories with noted exclusions: Compromised Credentials; Copyright (excl. Campus Network Housing subcategories); CSOC; DNS Block Request; Duo Fraud; e-Discovery; Investigation (excl. Missing Person); Phishing; Suspicious Activity Report (excl. Shadowserver).

DoIT OPERATIONS: TECHNICAL NOTES

Digital Publishing and Printing Services Definitions

Rework: Work that needs to be reprinted due to operator error or miscommunication from internal staff.

Average Rework percentage: Derived percentage of total jobs requiring rework.

Sales: Monthly revenue from sale of print and print related projects.

Jobs: Total number print and print related projects per month.

Average on-time percentage by stream: Percentage of projects per production category completed by customer negotiated deadline.

Category Definitions

NetID Account Management: Password resets and NetID change requests

Office 365: Support for @wisc.edu email and Microsoft Apps

UW C/EX Support: Any incident from a Colleges or Extensions user

Referrals: Unsupported services referred to other departments

General Departmental Support: Incidents from departmentally supported users

BadgIRT: Incidents regarding security disabled accounts

Point of Sale (Tech Store): Any incident regarding the Tech Store

Campus Network: Connectivity issues to UW-Net and device registration

Learn@UW - Canvas Madison: Support to UW-Madison students & staff with Canvas

Multi-Factor Authentication (MFA): Support to UW-Madison students, faculty, and staff with the MFA

Learn@UW: A suite of centrally-supported technologies for instructional usage; used by instructors and/or students. Learn@UW includes the services reported on the previous page and other learning technologies...

Project Management Office - Portfolio Metrics Definitions

Queued: Project is scheduled with a future start date.

On Hold: Project was active but work has been paused.

Stage Zero - Opportunity Development: Engagement with an Enterprise Architect.

Stage One - Proposed/Intake: Project submission to the intake process; includes days in stage zero technical review.

Stage Two - Prioritization: Project prioritization to determine Now, Next, Later or Never category.

Stage Three - Scheduling: Projects with multiple DoIT units involved present at a scheduling team meeting to identify needed talent and available capacity.

Stage Four - Project Go Live: Project completes a go live preparation checklist with a peer review process.

Stage Five - Project Closure: Project closes the project by completing a closure preparation checklist with a peer review process.

Total Days in Intake: Total number of days project is in stages zero through three.

Total Days in Process: Total number of days project is in all six stages of the Project Portfolio Process.

Major Projects: Major projects include Board of Regent reportable projects, campus wide impact, significant use of resources/talent, crisis response. Major projects follow all stages of the portfolio process.
