

DoIT Operations Monthly Report

January 2023

Published March 13, 2023

GARTNER METRICS

Metric	2022 (Median) [Interquartile range]	2023 (Median) [Interquartile range]
Abandonment Rate	6.0% [3.3%-10%]	7.0% [3.0%-10%]
Cost per Endpoint	\$829 [\$585-\$1260]	\$851 [\$629-\$1281]
Endpoints per Technician	389 [211-559]	394 [247-576]
First Contact Resolution Rate	70% [56%-80%]	69% [60%-80%]
Linux Servers per FTE	231 [169-434]	223 [153-385]
Windows Servers per FTE	299 [188-476]	317 [180-498]

Icons used in this report

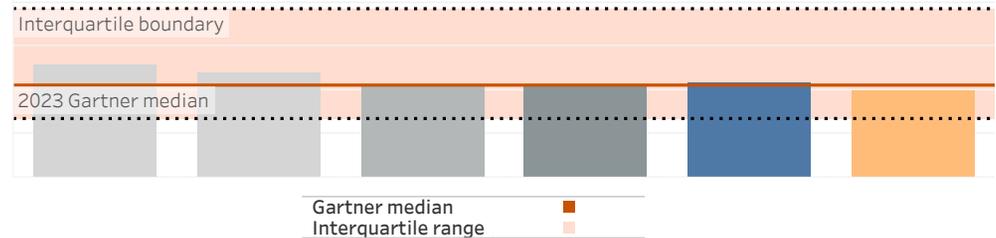

Factors influencing data this month; As identified and provided by data owners.

Notes defining and providing context to the data.

Interquartile Highlighting

NOTE: Help Desk Gartner benchmarks for 2020 and 2021 are for Medium Environments (65K-170K Handled Contacts per year), Departmental Support Gartner benchmarks for 2021 are for Small Environments (<13K total computing devices); 2020 used the overall average, and Solutions Engineering Gartner benchmarks are using the overall median.

All 2022 and 2023 Gartner values use the overall median, with interquartile ranges included. Interquartile ranges are the values from the middle 50% of the Gartner sample population.

*For WiscWeb: We experienced an issue on 1/18/23 where a Screaming Frog SEO scan that was run on it.wisc.edu ended up sending a ton of traffic to WiscWeb, thus triggering both Modsecurity and Wordfence. Any users on WiscVPN IP 144.92.38.236 were blocked from editing sites until we could add the IP to the unblock list in Wordfence. Users could still access live sites if disconnected from VPN (i.e. no sites were actually down). We are working with Operations Engineering to learn more about how we can avoid this issue in the future.
 On 01/12, a user reported Jira email notifications stopped sending around 6 p.m on Wednesday 01/11. The outbound SMTP was failing. Technicians reviewed the configuration settings with PCS. Jira was failing to authenticate with the mail server. After determining no changes were needed, a restart resolved the issue.

DoIT OPERATIONS: APPLICATION INFRASTRUCTURE SERVICES - IAM SERVICES OVERVIEW

Help Desk Resolution Rates for IAM Services During January

	All Incidents	% of Incidents	Incidents Created by HD	Resolved by HD	* HD % Resolution	** First Contact Resolution Rate	*** Customer Satisfaction

 *** Survey respondents rate satisfaction on a 7 point scale in response to: 'We value your opinion. How was your experience with us?'

DoIT OPERATIONS: USER SERVICES - DEPARTMENTAL SUPPORT OVERVIEW

Departmental Support - Annual Contacts

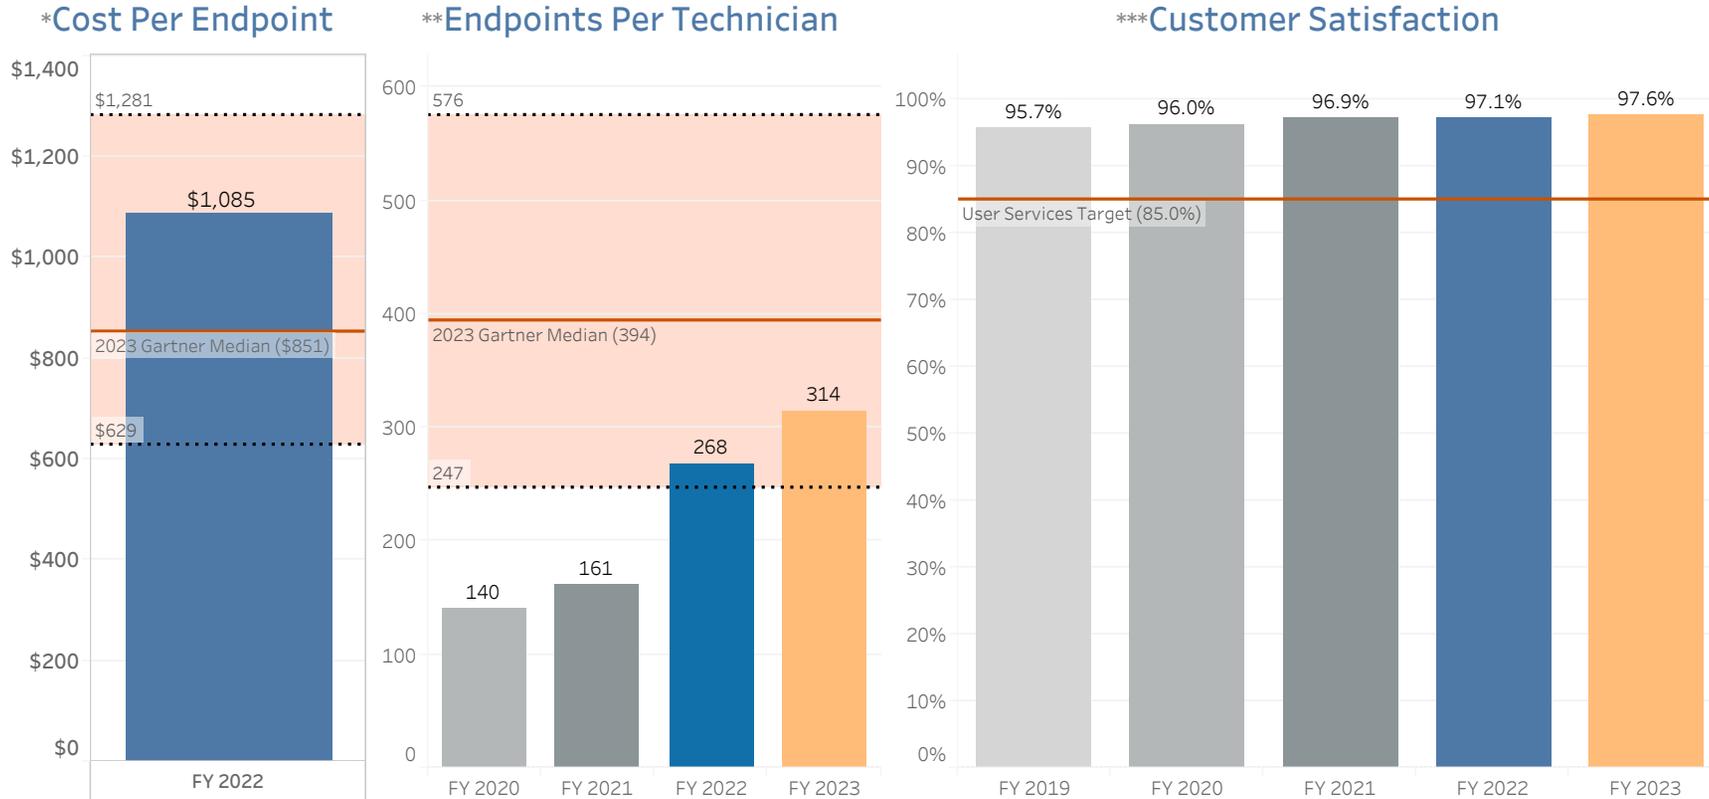

Customer Satisfaction

Notes: Departmental Support Annual Contacts represent cases resolved by DS teams. Survey respondents rate satisfaction on a 7 point scale in response to: "We value your opinion. How was your experience with us?" 7 Completely satisfied, 6 Mostly satisfied, 5 Somewhat satisfied, 4 Neither satisfied nor dissatisfied, 3 Somewhat dissatisfied, 2 Mostly dissatisfied, 1 Completely dissatisfied

DoIT OPERATIONS: USER SERVICES - DEPARTMENTAL SUPPORT METRICS

NOTES: *Cost per endpoint methodology updated for December 2021 to eliminate "complexity" as a variable and expand sample size. Gartner includes the costs of voice, peripherals, software, and external services, which we have not, as there are alternative funding models for those items. Prior values are not directly comparable to the updated methodology, and will not be recalculated. Updates will be processed annually.

**DS Endpoints per technician calculation updated for FY2023 to include AIMS endpoints and technicians, including mobile devices. Previous years values retained for historical reference and do not include mobile devices. Updated calculation redefines technician as a person rather than based on hours worked, and adds 56% of Infolab computers as managed endpoints. Calculation updated twice annually. Updated January 2023.

***Survey respondents rate satisfaction on a 7 point scale in response to: 'We value your opinion. How was your experience with us?'

■ Above Target

-Availability is for wired (not wi-fi) connectivity at each institution. Availability calculated as total uptime / total time per month. Wide Area Network is considered down when completely disconnected from the system (i.e. both routers down at 4-year schools, the single router down at 2-year schools). Any planned outages are included in the calculations, sometimes making availability appear below commercial standards of 99.9% or 99.99% uptime.
 -The 99.9% SLA rate with UW System is for unplanned outages; the figures in this table include all outages – planned or unplanned. SLA faults here (highlighted in RED) may not actually be an SLA agreement fault.

	% of full capacity (20Gbps)	1.90	2.20	3.10		95th percentile of usage	1.70	1.70	1.80
						% of full capacity (20Gbps)	4.40	4.70	5.00

NOTES: Average (mean) network usage includes night and weekend readings of typically much lower traffic. Averages for UW-Madison Campus Internet Access and UW-Madison internet Exchange will likely be lower in summer months than they are during the academic year.

95th percentile usage is a more common industry standard than avg/max/min for measuring utilization; Network Services is working on providing that measure as well in future reports.

A peering exchange, such as the Madison Internet Exchange, enables networks to interconnect directly to each other and exchange IP (Internet) traffic. Peering is the exchange between two independent networks for the benefit of both networks.

The target for WAN speeds is a capacity threshold instead of a specified speed to maintain. When 95th percentile speeds reach about 45-55% of capacity, there is an engineering exploration to determine the cause of increased usage and whether increased capacity is warranted.

■ At or above 85.0%

AT Learn@UW Services Annual Help Desk Contacts

NOTES: * HD % Resolution = incidents resolved by the Help Desk rather than being escalated to a specific service team. The HD % Resolution targets for AT Services were derived by taking the average HD % Resolutions from the past two years for AT Learn@UW Services.

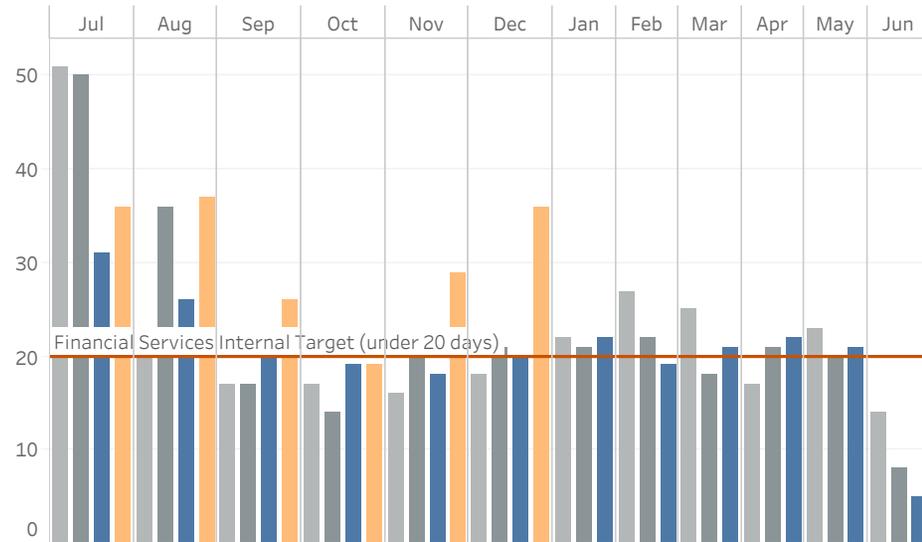

** First Contact Resolution has been defined as a phone incident opened by the Help Desk and resolved by the Help Desk, within one hour of the incident being created. As only phone incidents are looked at this metric may be blank if no phone incidents were reported for that service during the previous month.

*** Survey respondents rate satisfaction on a 7 point scale in response to: 'We value your opinion. How was your experience with us?'

Other Learn@UW Services include Atomic Assessments, Atomic Assessments Quizzing Tool, Engage, Honorlock, Piazza, ACAR (Pressbooks, Storyline, Learning Locker, Grassblade, General Content Authoring), Top Hat, Turnitin, UDOIT

 Pass (P)	***Completion rate		89%	89%	100%	11%

NOTES: * Indicates services in the End of Service Life (EoS) state that are not yet fully decommissioned.
 ** Service has a High Risk Data flag set to "Yes-Vendor" - this service contains high-risk data, but is outside of UW control due to being vendor-managed and not included in completion rate
 *** Completion rate represents the percent of services operated by DoIT that contain high risk data and have audit records attached per quarter.
 Q1 = July 1 - Sept 30, Q2 = Oct 1 - Dec 31, Q3 = Jan 1 - Mar 31, Q4 = Apr 1 - June 30
 Contents reflect DoIT operated Technical Services in the CMDB marked as High Risk at the end of January FY 2023. Deactivated/decommissioned services are not included. Blanks indicate an audit record has not been completed for the service.
Pass (P) - Backups are occurring at least every 28 days, and a test restore can be demonstrated every 90 days.
Fail (F) - Backups are NOT confirmed to be occurring at least every 28 days, and/or a test restore CANNOT be demonstrated to have been done every 90 days.

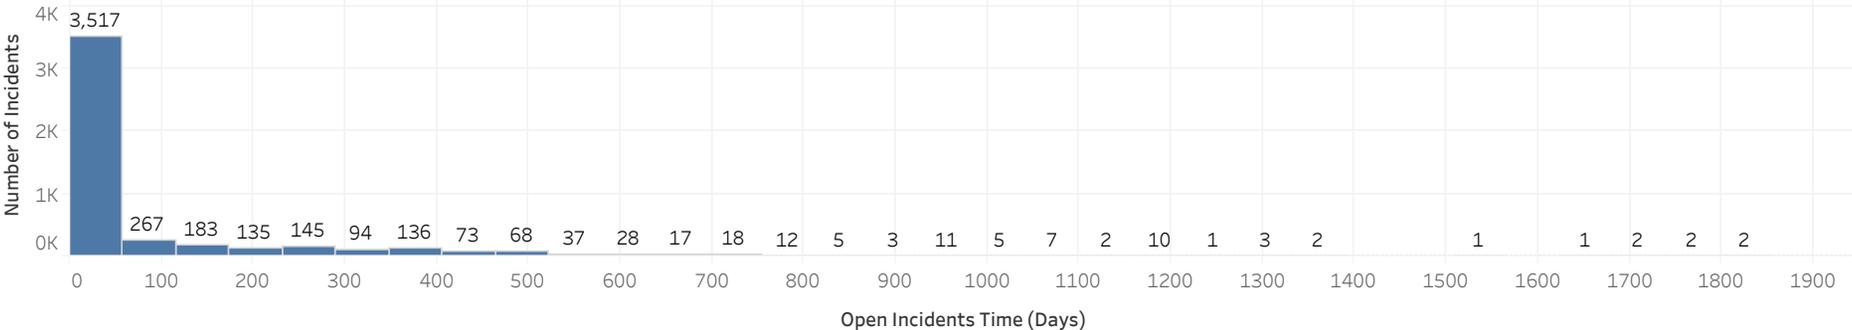

DoIT OPERATIONS: INCIDENT AGING REPORT

NOTE: Open incidents analyzed through 02/01/2023

Age of Open Incidents by Department

	Less Than 2 Days	Between 2 Days and 2 Weeks	Between 2 Weeks and 1 Month	Between 1 Month and 1 Year	Greater than 1 Year

Total Open Incidents by Age (days)

New Aging Incident process initiated Sept 20, 2021, including a one-time resolution event of ~5500 inactive incidents as part of implementation. Median age of incidents resolved during implementation was 578 days, and mean value was 566.5 days. This data excludes repair cases from open incidents.

DoIT Operations Report Monthly Updates

Gartner Benchmarks: Gartner metrics have been updated to include 2023 overall medians, with interquartile ranges included. Interquartile ranges are the values from the middle 50% of the Gartner sample population.

Departmental Support Metrics: The Endpoints Per Technician metric is updated for the January report. AIMS endpoints have been included in the ratio. This metric is updated two times each year.

DoIT OPERATIONS: TECHNICAL NOTES

HD: Walk-in created incidents are considered Help Desk incidents beginning in FY20 due to the merger between former Tech Store (Service Desk) and the Help Desk that began on July 1st, 2019.

HD-Overview: Cost per contact FY19 will be used due to a six month minimum to calculate the Gartner benchmark. 2018 HDI Benchmarks will be used until the release of 2019 numbers.

HD-Benchmark Details: First Contact Resolution for Help Desk User Services has been defined as an incident opened by the Help Desk and resolved by the Help Desk, within one hour of the incident being created.

DS-Overview: Total number of endpoints that have been verified via IBM BigFix: within the past 45 days as of 11/5/2019

DS-SLA Response Rate: Priority matrix obtained from WisclT. In Priority 1 cases, an entire department is unable to perform duties and there is no workaround available. Priority 2 cases involve one or multiple users being unable to perform duties without a workaround, or an entire department only able to perform partial duties. Priority 3 cases include an entire department or any number of its users being able to perform duties with a workaround, or one or multiple users being able to only perform partial duties. Priority 4 cases are for deferred cases or monitoring / tracking.

Active & Urgent Vulnerabilities: Number of active vulnerabilities with a severity of 4 or 5

Financial Services:

Average number of Days to Pay: E-reimbursement: Length of time, in days, from point that the requests enter the Financial Services queue to reimbursement payment to the employee. Note: this is a metric measured by campus, so we are using campus average as a point of comparison.

Days from SFS Close to CBS Close is the amount of days from Campus Financial close to DoIT CBS close.

Days from CBS Close to Management Report is the amount of days from DoIT CBS close to the DoIT Manager Report finalization.

Cybersecurity-Cybersecurity Operation Center: Includes the following categories with noted exclusions: Compromised Credentials; Copyright (excl. Campus Network Housing subcategories); CSOC; DNS Block Request; Duo Fraud; e-Discovery; Investigation (excl. Missing Person); Phishing; Suspicious Activity Report (excl. Shadowserver).

DoIT OPERATIONS: TECHNICAL NOTES

Digital Publishing and Printing Services Definitions

Rework: Work that needs to be reprinted due to operator error or miscommunication from internal staff.

Average Rework percentage: Derived percentage of total jobs requiring rework.

Sales: Monthly revenue from sale of print and print related projects.

Jobs: Total number print and print related projects per month.

Average on-time percentage by stream: Percentage of projects per production category completed by customer negotiated deadline.

Category Definitions

NetID Account Management: Password resets and NetID change requests

Office 365: Support for @wisc.edu email and Microsoft Apps

UW C/EX Support: Any incident from a Colleges or Extensions user

Referrals: Unsupported services referred to other departments

General Departmental Support: Incidents from departmentally supported users

BadgIRT: Incidents regarding security disabled accounts

Point of Sale (Tech Store): Any incident regarding the Tech Store

Campus Network: Connectivity issues to UW-Net and device registration

Learn@UW - Canvas Madison: Support to UW-Madison students & staff with Canvas

Multi-Factor Authentication (MFA): Support to UW-Madison students, faculty, and staff with the MFA

Learn@UW: A suite of centrally-supported technologies for instructional usage; used by instructors and/or students. Learn@UW includes the services reported on the previous page and other learning technologies...

Project Management Office - Portfolio Metrics Definitions

Queued: Project is scheduled with a future start date.

On Hold: Project was active but work has been paused.

Stage Zero - Opportunity Development: Engagement with an Enterprise Architect.

Stage One - Proposed/Intake: Project submission to the intake process; includes days in stage zero technical review.

Stage Two - Prioritization: Project prioritization to determine Now, Next, Later or Never category.

Stage Three - Scheduling: Projects with multiple DoIT units involved present at a scheduling team meeting to identify needed talent and available capacity.

Stage Four - Project Go Live: Project completes a go live preparation checklist with a peer review process.

Stage Five - Project Closure: Project closes the project by completing a closure preparation checklist with a peer review process.

Total Days in Intake: Total number of days project is in stages zero through three.

Total Days in Process: Total number of days project is in all six stages of the Project Portfolio Process.

Major Projects: Major projects include Board of Regent reportable projects, campus wide impact, significant use of resources/talent, crisis response. Major projects follow all stages of the portfolio process.
